BARBARA LORD Fund

Background:

Barbara Lord was a special woman. For many years, she was the tumor registrar at St. Vincent's Hospital in Los Angeles. She was one of the first students at the Tumor Registry Training Program at the University of California, San Francisco when it opened in 1961. She was a founding member of the Southern California Tumor Registrars Association in 1968, one of the first in the country. Many of the early meetings were held in her Los Angeles home. Barbara had a passion for education and professionalism. And she wasn't afraid to ask for the moon.

By 1972, the Northern California Tumor Registrars Association had been organized. Following a collaborative effort between the two groups to host a national meeting of registrars, Barbara again led the effort to join the two in a statewide association, and was installed as its first President on June 30, 1973. Barbara was definitely a mover and a shaker.

Barbara then began to focus her efforts nationally. The national meeting in San Francisco in 1972 appointed an ad hoc committee to investigate the feasibility of a national association for registrars. And of course Barbara was named to this committee. She continued moving and shaking, keeping the committee on target and drafting a set of bylaws. She then was given the honor of presiding at the adoption of these bylaws at NCRA's first Annual Meeting in 1974.

All this time, Barbara continued her work at St. Vincent's. Then, in 1976, she decided to "retire." At about the same time, the University of Southern California Cancer Center's Regional Activities Program was funded and a new training program for cancer registrars was born. And Dr. Robert McKenna tapped Barbara to develop and direct the program. Barbara's background was in nursing (specifically OR nursing) and that served her well in this new role of training registrars.

Barbara really retired in 1978. She then faced cancer from "the other side of the abstract". While fighting colon cancer, chronic lymphocytic leukemia and Hodgkins' disease, she was honored by the NCRA as its Distinguished Member in 1989. She survived until 1991, finally succumbing to the ravages of the cancer, a disease she fought valiantly, both professionally and personally.

Funding:

The Barbara Lord Fund (Fund) is funded through member donations at the time of the annual membership drive by checking the Barbara Lord box on the membership renewal form, and through other periodic donations throughout the year. Money can also be added to the fund from other revenue sources. This can only be done by a special CCRA board vote of the CCRA Executive Committee.

Use:

Barbara Lord was a founding member of the California Cancer Registrars Association (CCRA) and the National Cancer Registrars Association (NCRA). She had a passion for education, professionalism and cancer patient care. Each year the Fund sponsors a special speaker at the annual education conference.

The usage of this Fund is dependent on the amount collected during the annual membership drive. The CCRA Program Committee goes to great lengths to ensure that the speaker(s) supported by the Fund truly represents Barbara's spirit and contributions to our profession.

It is preferable that the Fund be used for an educational speaker; however, it is at the discretion of the CCRA board to ultimately decide how this Fund will be used.
