

Jump Start Sample - **Teddy Bears**

Emily loves teddy bear. From her birthday gifts through the years, she has collected 5 different colored teddy bears with different sizes. Here is the description of her bears:

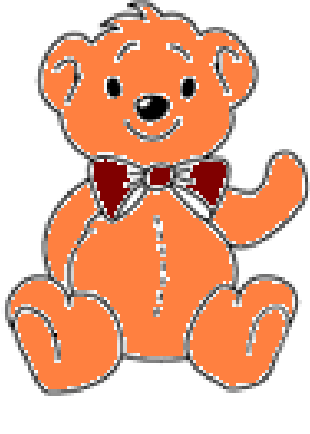

- The **biggest** one is **orange**.
- Her **smallest** one is **green**.
- The **medium** size is **brown**.
- The **yellow bear** is bigger than the **red bear**.

What color is each of Emily's bear?
Color the bears to find out.

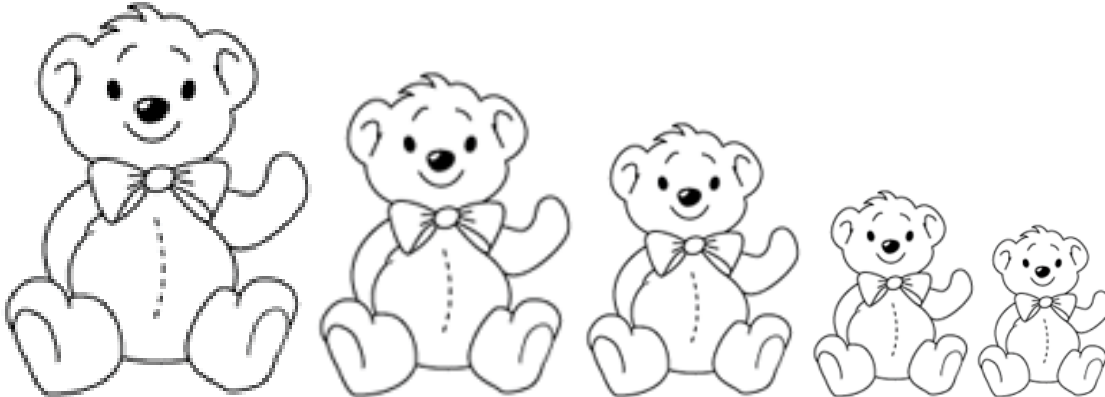

Jump Start Sample - **Teddy Bears**

Answer: The bears should be colored like this:

				
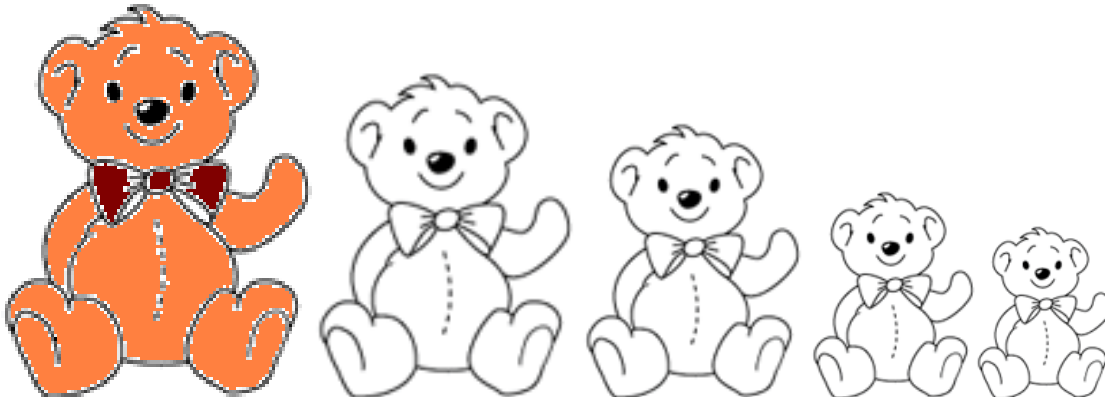

<p>Orange The biggest one is orange</p>	<p>Yellow With two remaining bears, the yellow bear is bigger than the red bear.</p>	<p>Green Her smallest one is green.</p>	<p>Red With two remaining bears, the red bear is smaller than the yellow bear.</p>	<p>Brown The medium size is brown.</p>

Solutions

1) Order the bears from the biggest to smallest or smallest to the biggest:

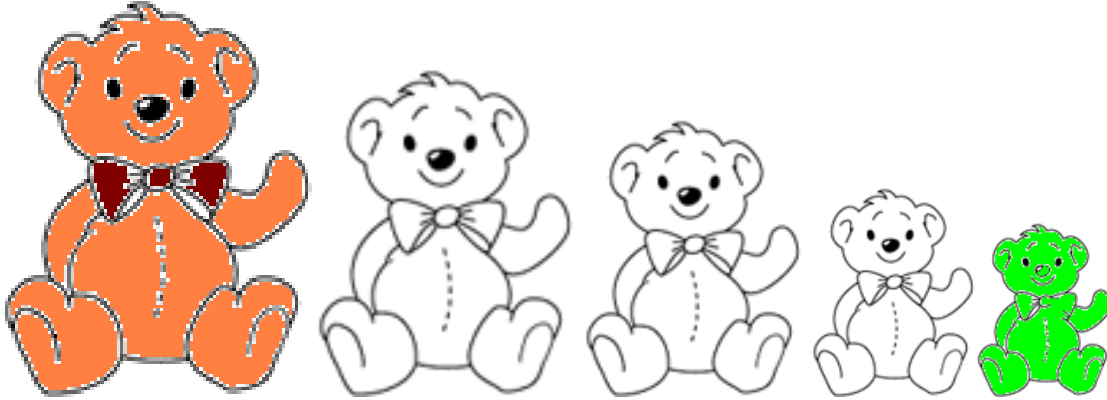

2) Color the biggest bear Orange:
