VINYL FENCE SYSTEMS

*Invent a style
just right for you.*

VinylGard® fences come in a range of styles and accessories to offer a product just right for you. With its durable design you'll find a VinylGard fence keeps its appearance far longer than traditional fences. In fact it may only be mentioned when your neighbors compliment you on it – which they'll do, year after year.

*The best in safety
and performance.*

Built from high performance materials with a number of designs, VinylGard systems are an ideal choice for privacy, safety and security. Made to withstand the wear and tear of everyday life, they're free of sharp edges, splinters and nails – perfect for children, pets and even livestock.

Styled to last a lifetime.

Wood is Rotten

The elements begin to take a toll on wood from its installation, in time causing it to chip, crack, split and finally rot. The only defense is a regular, annual maintenance schedule of staining, painting and repair.

Vinyl is Final

VinylGard products won't rot or split, and there aren't any splinters or nails to cause abrasions. It simply offers superior weatherability with greater resistance to the sun's harmful UV rays.

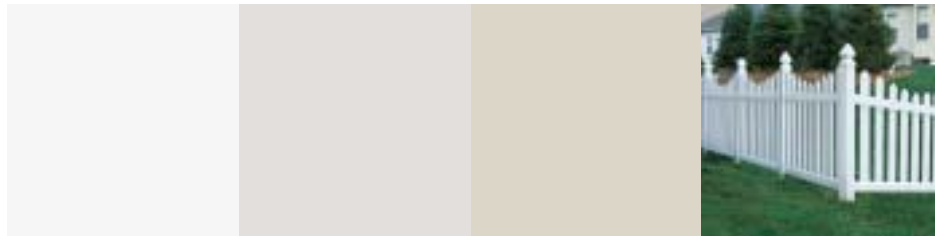

With the money saved in annual upkeep, a VinylGard system practically pays for itself.
