

Friends of the School Library (FOSL) together with the Vancouver Teacher Librarians' Association (VTLA) would like to invite you to our event:

## **UNDERSTANDING MEDIA: GUIDELINES FOR PARENTS**

We will be looking at the types of media which surround us, and discussing how this media impacts our children.

We are bombarded with advertising through TV, the Internet, print, and films. Our discussion will center around understanding persuasion and manipulation, while still teaching critical thinking.

How is media literacy important for academic success?  
What are the roles of libraries and teacher/librarians in that success?  
How can parents support the school library to ensure our children will be given the best tools to become media literate?

Please join us:

November 25  
7:00 PM to 9:00 PM  
Tupper Secondary School Library

We look forward to seeing you.
