

and faculty – and to structure their attendance around the demands of their professional and personal lives. The graduate-level Advanced Certificate in Homeland Security Management program utilizes the University's powerful, highly intuitive and easily mastered online learning platform to support interactive learning.

INTERACTION BETWEEN AND AMONG FACULTY AND STUDENTS

The graduate-level Advanced Certificate in Homeland Security Management program recognizes the value and importance of interaction and communication between students and faculty as well as between and among students. This philosophy of mutual exchange of ideas and joint learning guides our program, which has been structured to facilitate a high level of formal and informal interaction among all participants.

Homeland Security Management is an evolving field that is rooted in a number of diverse fields of specialized knowledge and practice. One of the compelling challenges Homeland Security Management faces as it moves into the future is the need to integrate these specializations and to create a broader and more comprehensive understanding of how they coordinate and interact. Both our curriculum and our faculty reflect this diverse range of specialized fields, as well as our students who also are drawn from a diverse array of professions, areas of expertise and geographic areas.

As experienced homeland security professionals, our faculty of Senior Fellows recognize they stand to learn as much from students as students learn from them. Our program encourages exploration, dialogue and debate, and it seeks to take advantage of the diverse knowledge, skills and areas of expertise our students bring to the program.

ACADEMIC REQUIREMENTS

While admissions standards will generally reflect those of other Long Island University graduate programs that require a bachelor's degree from an accredited institution and a grade point average of 3.0 or better, the program recognizes that many highly motivated, highly experienced, and highly qualified homeland security practitioners may not have fulfilled all the requirements for a bachelor's degree. The program will make special accommodations for exceptional applicants who have not completed their bachelor's degree, but who possess outstanding expertise and credentials, a unique level of practical experience, or a particularly exceptional skill set.

The program's policy is to carefully monitor these students and their progress, and special requirements may be imposed to ensure their academic success. For more information about the exceptional admissions policy, contact the program's director or visit our Web site at www.southampton.liu.edu/homeland.

The Homeland Security Management Institute's courses also are an attractive and valuable option for graduate or upper-level undergraduate students in degree programs at Long Island University (or other institutions) who want to explore the homeland security field and/or expand their employment opportunities in this growing area. Students enrolled in other Long Island University degree programs who wish to take Homeland Security Management Institute courses for elective credit may register for these courses with the approval of their department and the program's director.

Students pursuing the Certificate on a full-time basis can complete the requirements in a single semester. Part-time students can complete the Certificate's 15 credits in a timely fashion.

A substantial one-third (1/3) tuition discount is available to qualified New York City and Nassau and Suffolk County (NY) municipal employees, and scholarships and financial aid also are available to qualified applicants.

For more complete information about this unique and innovative opportunity for online graduate-level professional education in the complex and challenging field of Homeland Security Management, as well as information about our curriculum, our faculty of Senior Fellows, and our Board of Advisors, visit the Long Island University Homeland Security Management Institute's Web page at www.southampton.liu.edu/homeland. Our Web site also features information on employment opportunities and on the specialized investigative and intelligence courses the Institute offers, as well as links to sources of information and to agencies in the homeland security field and the intelligence community.

LONG ISLAND UNIVERSITY

HOMELAND SECURITY MANAGEMENT INSTITUTE

Long Island University's Homeland Security Management Institute offers an online graduate-level, 15-credit Advanced Certificate in Homeland Security Management, designed to meet the complex contemporary needs of homeland security specialists, law enforcement professionals, emergency managers, fire fighters and HazMat experts, military personnel, government and public safety officials, and corporate security professionals across the

country and around the globe. The program, which is fully registered with the New York State Education Department, provides an outstanding professional credential that also will enhance career opportunities for those aspiring to careers in rapidly expanding homeland security fields. The online learning format is designed to accommodate the irregular and unpredictable schedules of busy professionals.

COURSE DESCRIPTIONS

Introduction to Homeland Security Management - surveys the major policies, practices, concepts and challenges confronting practitioners in the complex field of homeland security management.

Constitutional Issues in Homeland Security Management - overviews the various statutes, case law, and Constitutional principles governing the activities of practitioners involved in the homeland security enterprise at the federal, state and local levels.

Domestic and International Terrorism - examines the threat of terrorism and its impact on homeland security, as well as the complex motivations, ideologies, goals and tactics of various domestic and international terrorist groups.

The Intelligence Function in Homeland Security Management - acquaints students with the concepts and practices involved in the process of collecting, analyzing and evaluating intelligence, and managing the intelligence function, as well as the influence of intelligence in shaping homeland security decision making at the federal, state and local levels.

Homeland Security and the Private Sector - explores the roles played by business, health care, education, critical infrastructure and other sectors in homeland security.

BOARD OF ADVISORS

The Institute's Board of Advisors boasts the most influential names in homeland security and law enforcement, including: **William J. Bratton** - Chief of the Los Angeles Police Department and former New York Police Commissioner, a graduate of the FBI National Executive Institute and a Senior Executive Fellow at Harvard University's John F. Kennedy School of Government; **Dan Mullin, J.D.** - retired New York Police Deputy Chief and current Director of Security for Major League Baseball; **Joseph Fuentes, Ph.D.** - Superintendent, New Jersey State Police; **Daniel Oates, J.D.** - Public Safety Director and Chief of Police, Ann Arbor MI, and retired Chief of New York Police Department's Intelligence Bureau; **Frank Straub, Ph.D.** - Director of Public Safety, City of White Plains and former New York Police Deputy Commissioner for Training and Assistant Commissioner for Counterterrorism; **Lt. Col. Xavier Stewart, Ph.D.** - Commander, 3rd Civil Support Team (Weapons of Mass Destruction), USANG; and **Dean Esserman, J.D.** - Police Chief of Providence, RI and noted expert in transportation security. In addition, Congressman **Peter King, J.D.** - who represents the Third Congressional District of New York and serves on the Homeland Security Committee, and Congressman **Steve Israel** - who represents the Second Congressional District of New York and is on the Armed Services Committee, are among those serving on the Board. A complete list of members of our distinguished Board of Advisors can be found on the Institute's Web site, www.southampton.liu.edu/homeland.

Oates, Mullin and Straub also are among the Institute's faculty of Senior Fellows, sharing their years of practical experience with students and professional colleagues. Students will be able to communicate online with other students and with Senior Fellows, all of whom come to the program from a variety of homeland securities specialties from across the nation and around the globe.

ADVANTAGES FOR PROFESSIONALS

Earning the Advanced Certificate in Homeland Security Management allows professionals to attain the credentials required to prepare for a second career or to attain advancement in their current career. It also prepares pre-career students with the knowledge, skills and practical insights required of Homeland Security professionals and managers. The graduate-level Advanced Certificate provides:

- the leadership and organizational skills needed to formulate and execute strategies in harmony with federal homeland security strategic objectives.
- the skills needed to apply innovative approaches to problem solving and to achieve resilient and adaptive patterns of thinking.

The graduate-level Advanced Certificate in Homeland Security Management is a rigorous program of professional education, developed and delivered by homeland security professionals, for homeland security professionals. The five courses in our curriculum have been carefully crafted to meet the unique and specific needs of managers and executives in homeland security related fields. This highly integrated curriculum is designed to meet the practical needs of busy professionals working in law enforcement fields, as emergency managers, as private security personnel, in the intelligence community, in the transportation industry, in critical infrastructure, and in a host of other private sector specialties in the complex homeland security enterprise.

Our Senior Fellows are a faculty of highly experienced practitioners with doctoral degrees and other outstanding academic credentials, including several Fulbright Scholars. They have 'been there,' having completed their education while working full-time in demanding positions as homeland security managers and executives, and they still work in the field. They are particularly sensitive to the needs and objectives of busy homeland security professionals as well as to the needs and objectives of those aspiring to management careers in homeland security fields. They understand the practical challenges active homeland security professionals face in pursuing higher education, including unpredictable schedules and the struggle to balance complex professional and personal

responsibilities. A complete list of our Senior Fellows can be found at our Web site, www.southampton.liu.edu/homeland

ONLINE EDUCATION AT THE GRADUATE LEVEL

The online distance education format makes it possible for students – especially those employed as homeland security professionals in varied geographical locations – to participate without relocating to a distant campus. It offers these students the kind of scheduling flexibility that is absolutely essential for busy homeland security professionals. Distance learning makes the Homeland Security Management program available to a more diverse cross-section of traditional students and practitioners from homeland security organizations and agencies across the nation, thus enhancing the quality of education by broadening the range of perspectives and experiences represented.

The Homeland Security Management Institute's dynamic and innovative approach to graduate professional education is unique in the nation. No other program offers the opportunity to learn Homeland Security Management with a faculty comprised entirely of seasoned professionals with outstanding academic credentials.

Our innovative online approach to professional education permits busy professionals to participate in a "virtual classroom" – to attend lectures, participate in class discussions and to interact with students
