**Client**  
Consolato  
Generale  
d'Italia  
in Londra

## Consolato Generale d'Italia in Londra

### Approved Inspector Services

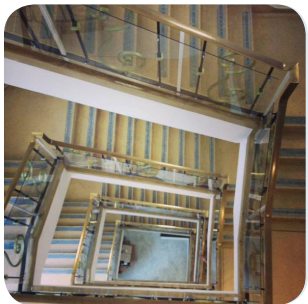

Wilkinson Construction Consultant were commissioned to assist the Italian Foreign Ministry in the redevelopment of a 1950s office building in a key location in the City of London to provide a new home for the Italian Consulate in London.

**Architect**  
RCKa

Working closely with UK architects RCKa and the Italian Foreign Ministry, we worked hard to ensure that the design and executed works conformed not only to the Italians own standards but those that apply here in the UK. The challenging project involved a comprehensive redevelopment of the existing building, including major structural enhancements, the insertion of a new lift and reconfiguration of the existing stairs, as well as the installation of new office, archive and consular space throughout the building.

**Sector**  
Offices

The building was completed and officially opened on 17th July 2013 by the Italian Prime Minister Enrico Letta
