"REHAB NURSES...THE FORCE IS STRONG WITH YOU"

Our Goals: The primary goals for the annual educational conference are to increase attendee's awareness of new trends in rehabilitation healthcare and to support the continued growth of rehabilitation nursing and individual nurses.

Objectives: The participant will be able to:

- Identify general indicators that a person may be a victim of human trafficking.
- Determine the role of the rehabilitation nurse in incorporating new advances into daily clinical practice.
- Learn how to prepare for deposition and respond to subpoenas.
- Describe the new standards for CAUTI and bowel management.
- Relate the importance to early detection of skin/tissue damage to identify the critical/unique needs of the patient.
- Discuss the challenges in rehab with the medically complex patient.
- Identify ways to accurately assess level of consciousness.
- Understand the issues surrounding the treatment of chronic pain and the opioid crisis.
- Examine strategies of how you can ensure greater success for patients with low vision.
- Develop a plan for maintaining professional conduct in today's world.
