 Davie, FL 33325

“Too Much Fun in the Sun... Rehab to the Rescue”

Our Goals: The primary goals for the annual educational conference are to increase attendee’s awareness of new trends in rehabilitation healthcare and to support the continued growth of rehabilitation nursing and individual nurses.

Objectives: The participant will be able to:

- Identify the challenges and pitfalls of social media on professional practice.
- Discuss the role of rehab and the self-reported rehab experiences of women surgically treated for breast cancer.
- Identify the discharge needs in a medically complex patient.
- Discuss how equine-assisted therapy promotes human physical and mental health.
- Discuss the legal rights of the undocumented person in healthcare and legal settings.
- Identify tools and strategies for teaching individuals with disability about healthy relationships and sexuality.
- Identify and discuss the appearance of burns and skin grafts in order to assess for appropriate healing.
- Describe how telehealth can be used both as a preventative solution and post-injury treatment.
- Describe novel ways to treat/prevent bone implant infection.
- Discuss the rehab needs of the patient after artificial disc replacement surgery.
- Discuss PRP, amniotic fluid and stem cell injections applications and uses.
- Discuss ways to protect individuals and self from harm.
- Identify how to get involved with Special Olympics Florida’s goal to erase the stigma and become an active part of the solution.

About the Conference Location..... On Disney property across the street from Disney Springs (Formerly Downtown Disney World).
