

my memories Project 52

They say the only CONSTANT in life is CHANGE - so that's the focus of this week's P52 post! There are many things we can change that will make BIG difference in our photography and memory keeping. We can change our camera, we can change our lens, we can change our post-processing work, we can change our printing... all of which are GREAT, and can make a big difference. But don't forget the free things we can change too! We can change our position, our approach, our timing, we can change our perspective, we can change the direction of the light, we can change our skills! These can all be done for FREE and can make JUST as big a difference to our pictures! I have read that one of the biggest differences between an amateur and professional photographer is the distance they stand from their subject! So, try coming in CLOSE and see what you think. Try getting down on the ground or on a chair for a unique viewpoint of your subject! Little things can make a BIG difference! So, try to CHANGE just one thing about your pictures this week. Shoot from down

< CHANGE >

Below - shoot from up above - go crazy! But just remember to TRY something new that's a little outside your comfort zone and try something NEW! Try a new setting on your camera if you are always on auto. Try to have your subject stand or sit in a new way. Check out Pinterest for TONS of free inspiration images and find something you want to try. WHO CARES if you screw up!! Stick with it and you WILL find something you can do and that you love! Ask any professional photographer and they will tell you (if they are honest) that there are things they tried that did NOT work - but you'll never know 'til ya try! So, get up off the couch and dust off that camera if it's been sitting too long. This is a perfect weekend to try something new. Take a picture at the Egg hunt from the EGG'S perspective!! LOL Have fun with it - and share some of your pics on the FB page!
