

# my memories Project 52

Hi again! Welcome to week 21 of the MyMemories \*Project 52\* series! This week is a great time to talk about how we can use our projects to commemorate and honor those that aren't with us any more. This week, as we take time to honor our fallen on Memorial Day in the US, we'll offer a reminder to make sure you capture the story behind the photos while you can from those who know the details. How often have you looked back at old black and white photos of long ago, and no one knows who they are or that their exact connection is to you or your family? This week our word is one that we need to take time to do... let's:

# remember

When you are archiving photos, or creating pages or working on journaling a current project - take the time to include (even if you add them as a design detail with WordArt) as many details as you can about WHO is in the pictures, and WHY they were taken. We have a LOT more photographs these days of daily life, but we still need to remember to capture the information we can while it is fresh. If you have older relatives, make sure you try to get the \*story\* behind old family photos. There is some amazing history that is being lost because sometimes there is no one left to tell the tale. Try to have them tell the story in their words, and be sure to record as much as you can about what is going on in the picture, or where the picture was taken or why! You will be glad you did!! Even if you just keep a notebook until you get the pages done, remember to remember!

## More fun to come with MMS & \*P52\*
